

Vergys LLC [ver-jis] provides strategic consultative services to public and private sector organizations. We partner with you to expose obstacles, develop effective solutions, and enable breakthroughs to new levels of success. Our proven strategies and methodologies provide the highest return on your investment in us.

## CONSULTING AND ADVISORY SERVICES

### CORE COMPETENCIES

-  Investment Management
-  Budget and Resource Management
-  Data Visualization, Management, and Analysis
-  Human-Centered Design and Innovation
-  Talent Management and Development

### DIFFERENTIATORS

Vergys brings a breadth of expertise in management and IT consulting to every client. We have the right tools and experience to develop and implement innovative approaches and solutions to exceed mission requirements today and in the future.

#### Connecting the Dots

Our decade of operational data analysis experience provides unique insights into the challenges and opportunities of evidence-based decision-making. Our knowledge of design improves data usability.

#### Leading Edge Work Products and Solutions

We connect data to people and understand user needs. We apply an iterative, user-centered design approach and industry best practices to client-facing products. We know what information decision-makers need to meet policy and program objectives.

#### Achieving Transformation

Operational excellence is critical. With a "people first" philosophy, we help organizations expand their capabilities and position themselves to better serve citizens.
